FOR IMMEDIATE RELEASE

Jason Hiser Joins Lewis Hybrids Sales Team

Ursa, IL. January 5, 2012. Lewis Hybrids is pleased to announce the addition of Jason Hiser as District Sales Manager in West Central Missouri. “We’re pleased to have Jason join us as a member of our team,” Scott Lewis, president said. “I think you will find has Jason has very good knowledge of the seed business due to his 14 years of experience in the ag machinery business with the last 8 years focusing on sales.”

“The decision to join the Lewis brand was easy,” Hiser said. “Lewis focuses on family values, honest and trustworthy business practices and helping farmers with individual fields. These are the same as my personal values so it’s a good fit.”

Jason and his wife, Ashlee and their three children Jaxon, Toree and Tande live in Butler. One of his primary goals for his new territory is helping as many growers as possible to understand and utilize new seed technology that makes sense for them to help make their farm more profitable. Another goal is to meet every current Lewis customer and introduce as many new growers as possible to the Lewis Brand Family.

Lewis Hybrids is a family-run seed business that has delivered seed solutions and service to the state of Missouri, west central Illinois and southeastern Iowa farmers for three generations. Their corn, soybean and wheat seed solutions are backed by the year-round Lewis Service Promise. For more details, visit www.lewishybrids.com.
