New Lewis Hybrids Seed Dealer in Randolph County

URSA, IL – Lewis Hybrids has a new dealer in Randolph County. Jamie Dougherty, Clark, Mo., will service customer needs in Randolph and surrounding counties. Lewis Hybrids is an Ursa, Ill., based seed company expanding its business throughout Missouri.

"I am looking forward to sharing with other farmers information about the success we have had with Lewis seed products on our own farm. Lewis offers high quality seed products with the newest technology and the backing of Monsanto," says Dougherty. Jamie raises corn and soybeans with his father, Jerry, and has a small cowherd. "We have been planting the seed for the last three years and had good results."

Lewis Hybrids strives to ensure increased productivity on customer farms through specific placement of regionally-adapted seed solutions that help farmers produce more bushels and higher profits. Special attention is placed on producing the best quality seed, which includes rigorous testing, from planting through conditioning and packaging.

"With our connection to the deepest, most innovative pipeline of genetics and traits in the corn and soybean industry, we are positioned to provide customers with higher yielding, outstanding seed solutions and service, literally one field at a time," says Scott Lewis, brand manager. "Our legacy of service and treating customers like family is at the forefront of our minds every day. We really emphasize each customer's accessibility to our local seed experts and extend a promise of year-round high quality service."

Dougherty encourages farmers to contact him at 573-881-0977 or 573-641-5099, or via email at heathert@socket.net.

Lewis Hybrids is a family-run seed company that has delivered seed solutions and service to northern Missouri, west central Illinois and southeastern Iowa farmers for three generations. Their corn, soybean and wheat seed solutions are backed by the year-round Lewis Service Promise. For more details, visit www.lewishybrids.com.
