Jeremy Burger Named Lewis Hybrids Seed Dealer

URSA, IL – Jeremy Burger, California, Mo., was recently named to the Lewis Hybrids seed dealer team. He will serve farmers in central Missouri. Lewis Hybrids is based in Ursa, Ill., with an expanding presence in Missouri.

"I grew up on a farm and was active in FFA through high school. Working in the seed business is a natural fit for me," says Burger, who also works for Lehman Construction. "I farm row crops as well as alfalfa. I have been impressed with Lewis so far. The company offers quality seed products and has a solid replant policy."

Lewis Hybrids strives to ensure increased productivity on customer farms through specific placement of regionally-adapted seed solutions that help farmers produce more bushels and higher profits. Special attention is placed on producing the best quality seed, which includes rigorous testing, from planting through conditioning and packaging.

"With our connection to the deepest, most innovative pipeline of genetics and traits in the corn and soybean industry, we are positioned to provide customers with higher yielding, outstanding seed solutions and service, literally one field at a time," says Scott Lewis, brand manager. "Our legacy of service and treating customers like family is at the forefront of our minds every day. We really emphasize each customer's accessibility to our local seed experts and extend a promise of year-round high quality service."

In his spare time, Burger coaches peewee football and enjoys following his son's sports activities. He is also an active member of the United Church of Christ in California. Burger can be reached at 573-338-5122 or aburger1023@gmail.com.

Lewis Hybrids is a family-run seed company that has delivered seed solutions and service to northern Missouri, west central Illinois and southeastern Iowa farmers for three generations. Their corn, soybean and wheat seed solutions are backed by the year-round Lewis Service Promise. For more details, visit www.lewishybrids.com.
