Jim Nevils Becomes Lewis Hybrids Seed Dealer

URSA, IL – Jim Nevils of Knob Noster, Mo., has been named a seed dealer for Lewis Hybrids, an Ursa, Ill., based seed company with an expanding presence in Missouri. Nevils, who has been a seed dealer for nearly 30 years, brings a wide range of experience to the position and extensive agronomic knowledge of the existing farming territory.

“I have been working with farmers in the greater Sedalia area first with Merschman Seeds and then Fontanelle Hybrids. I know the region well, and I know what type of seed products work. I look forward to introducing Lewis’ tremendous seed product lineup to farmers,” says Nevils. “I am always interested in offering input to farmers about what will be successful. Lewis seed products are highly competitive products for this region, and just as Lewis says, we can make a difference, one field at a time.”

Lewis Hybrids strives to ensure increased productivity on customer farms through specific placement of regionally-adapted seed solutions that help farmers produce more bushels and higher profits. Special attention is placed on producing the best quality seed, which includes rigorous testing, from planting through conditioning and packaging.

“With our connection to the deepest, most innovative pipeline of genetics and traits in the corn and soybean industry, we are positioned to provide customers with higher yielding, outstanding seed solutions and service, literally one field at a time,” says Scott Lewis, brand manager. “Our legacy of service and treating customers like family is at the forefront of our minds every day. We really emphasize each customer’s accessibility to our local seed experts and extend a promise of year-round high quality service.”

Prospective customers can reach Nevils at 660-527-3514, or nevils7@netzero.com.

Lewis Hybrids is a family-run seed company that has delivered seed solutions and service to northern Missouri, west central Illinois and southeastern Iowa farmers for three generations. Their corn, soybean and wheat seed solutions are backed by the year-round Lewis Service Promise. For more details, visit www.lewishybrids.com.
