Nathan Burkemper Named Lewis Hybrids Seed Dealer

URSA, IL – Nathan Burkemper of Old Monroe, Mo., has been named a seed dealer for Lewis Hybrids, an Ursa, Ill., based seed company with an expanding presence in Missouri. Burkemper, who has had a life-long passion for agriculture, will focus on serving customers in the Lincoln County area, and parts of St. Charles and Pike counties.

“I had been working in the electrical industry for the last decade, but I wanted to return to agriculture,” says Burkemper, who has a degree in agricultural business management from the University of Missouri. “A friend recommended I become a dealer for Lewis Hybrids because the company has great seed products and a great reputation. Now that I am part of Lewis, I plan to deliver that quality product to growers with first-class service. Lewis products are clearly a solid agronomic fit in my area.”

Lewis Hybrids strives to ensure increased productivity on customer farms through specific placement of regionally-adapted seed solutions that help farmers produce more bushels and higher profits. Special attention is placed on producing the best quality seed, which includes rigorous testing, from planting through conditioning and packaging.

“With our connection to the deepest, most innovative pipeline of genetics and traits in the corn and soybean industry, we are positioned to provide customers with higher yielding, outstanding seed solutions and service, literally one field at a time,” says Scott Lewis, brand manager. “Our legacy of service and treating customers like family is at the forefront of our minds every day. We really emphasize each customer’s accessibility to our local seed experts and extend a promise of year-round high quality service.”

In addition to his work with Lewis Hybrids, Burkemper is active in his church and coaches his daughter’s softball team. Prospective customers can reach Burkemper at 314-330-3927 or nburkemper@yahoo.com.

Lewis Hybrids is a family-run seed company that has delivered seed solutions and service to northern Missouri, west central Illinois and southeastern Iowa farmers for three generations. Their corn, soybean and wheat seed solutions are backed by the year-round Lewis Service Promise. For more details, visit www.lewishybrids.com.
