2010 LEWIS HYBRIDS PROGRAM PROMISE 5:

Optimal Soybean Treatment Program

Protect your soybean yields... *One field at a time!*

The Lewis OPTIMAL Soybean Treatment Program features traditional and biological disease defenses, plus the benefit of insect protection.

- **Insect Protection from** seed corn maggots, wireworms, early (not full) season soybean aphids and over wintering bean leaf beetles.
- **Traditional two-fungicidal whole-system defense** against stand-reducing diseases such as *Rhizoctonia*, *Fusarium*, *Pythium* and *Phytophthora*, and seed-borne diseases, *Fusarium* and *Aspergillus*.
- **Biological fungicide protection** that suppresses *Rhizoctonia* and *Fusarium*, stimulates the immune system and increases root and shoot growth.

The Lewis Soybean Treatment Program is the OPTIMAL solution for improved plant health, increased crop vigor and more dependable stands leading to higher yield potential and improved risk management for our customers' soybean acres.

Program details:

- **Lewis Roundup Ready® Soybeans must be ordered by December 1, 2009** in order to receive the Lewis OPTIMAL Soybean Treatment.
- **Save \$5.00 per unit (and pay only \$7.00 per unit) if ordered by December 1, 2009.** Availability after that date is subject to change.
- Lewis Roundup Ready Soybeans are available for this program in bulk seed boxes.
- Lewis Roundup Ready 2 Yield™ Soybeans are excluded from this program.
- There is a no returns policy on all treated Lewis Roundup Ready Soybeans.

Lewis Hybrids has created a standard in the industry for quality soybean seed. This coupled with the Lewis OPTIMAL Soybean Treatment ensures farmers a better stand and faster emergence for their soybeans... *One field at a time!*

Completed, signed orders must be submitted or they do not qualify for the Optimal Soybean Treatment pricing. Contact your Lewis DSM or Lewis Dealer for questions.
