### TEST COMMENTS:

*This site was planted into a clean seedbed and had great stand count numbers. Late June and most of July were extremely dry and warmer than normal. A nice 2.3 inch rain fell the last week of July. August and September were hot and dry, with only spotty showers in the area. Plants were on the short side but standing well at harvest. Most hybrids had ear tip-back, some worse than others. Good weed control.*
